Att: Crystal Body Deodorant Division

Re: Crystal Body Deodorant

To Whom It May Concern:

We are Radiation Therapy Department in the Kansas City Cancer Center Group. We treat a variety of different types of cancer. The physician I work with has never allowed any type of deodorant on the treatment side. She finally agreed after you sent us the letters from other radiation centers.

The patients love it!! Finally our ladies (and our gentlemen), have something they are allowed to use. We only allowed corn starch until we started using your product. It is easy to find and very reasonable to buy. One of our Medical Oncologists came to me and asked where he could buy it and I gave him a sample. He purchased it for him and his wife.

It sounds like such a simple matter, but it has been such an issue with our patients. I THANK YOU so much!! It has made life a little easier and safer for our patients. I am putting your "crystal" sample in all my Breast Cancer Education Bags that I start my patients with.

Thank you for your wonderful product!!!

***Sincerely,
Sandy Hale R.N.,O.C.N. Radiation Oncology Department***
