To Whom It May Concern:

The purpose of this letter is let you know what a great product you have. We are a Radiation Oncology office. I give our breast cancer patients a sample of your product on the day they come for their teaching and planning appointment. Many of our patients have told me that they love the product and continue to use it when they finish with radiation. Best of all it is natural and EFFECTIVE!

I personally can vouch for Crystal as on occasion I have forgotten to wear deodorant and have used my Crystal sample and it works great.

Sincerely,

Jacqui Gibbons, RN
