To Whom It May Concern:

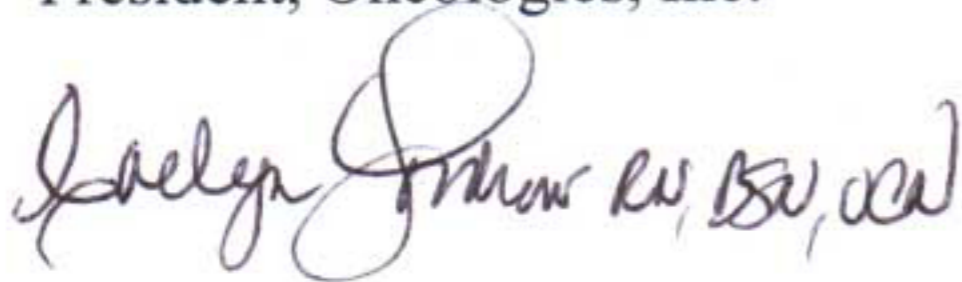

I have been suggesting Crystal Deodorant for our radiation therapy patients for the last 3 years. Patients who are receiving radiation therapy to the axilla area, such as breast cancer or lymphoma, greatly benefit with the use of Crystal Deodorant. Our patients experience less irritation to the axilla when using this product. Suggesting a useful, cost effective product makes compliance easy for all these patients.

Thank you for such a wonderful product.

Sincerely,
